

CASEY HENDERSON

SKILLS

- I am proficient in a number of programming languages, including Swift, C++ and Java.
- I am a confident communicator with a passion for technology and a desire to make it accessible. I frequently work with family and peers fixing technological problems and helping them get the most out of their technology.
- I am able to work in a team and enjoy doing so. I have shown this when I worked alongside a fellow developer to create a mobile game for Android devices.
- I am a confident public speaker. I have demonstrated this when I have presented on complex subjects (quantum computing, information theory) to varied audiences, and have received an award (voted 'Best Presentation' by the judges) for doing so.
- I am confident developing iOS applications in Swift using Xcode. My most recent project using these is an app to help the less technologically confident choose the best new device for them.

EDUCATION

Computer Science BSc (Hons) | 2019- | Sheffield Hallam University

Modules: Systems Modelling, Fundamentals of Programming for Computer Science, Fundamentals of Computer Architecture, Professional Experience and Project Development, Algorithms and Data Structures and Maths for Computer Science.

EXPERIENCE AND LEADERSHIP

- I am currently a Course Rep and I am also an enthusiastic participant the Career Mentoring Scheme.
- This year I have also joined Think Care Help, a student-run society focused on helping the homeless in Sheffield.
- During my secondary education, I volunteered at my local library for two 3-month periods. While there I controlled the computer systems, manned the phones and created a marketing campaign.
- I also completed First Aid Training from the St John's Ambulance in Year 10 at my secondary school.
